What is Nutritional Medicine

Clinical Nutrition is based on the principle that nutrition plays an important role in virtual every medical condition. Nutrients (vitamins, minerals ,fatty acids, amino acids,) and non-nutrient bioactive compounds (probiotics, herbs, enzymes, hypochlorid acid) can increase or decrease the level of important chemicals in the body, reduce inflammation, influence hormonal balance, reduce levels of toxic elements/chemicals, improve immune function, reduce oxidative stress and alter genetic functions.

What is Bioinformational medicine

Scientists have already proven that human beings are a gigantic electromagnetic - cell compound. Subtle currents are passing through all our 70 trillion !!! of tiny cells.

*Whereas western pharmaceutical chemical drugs work on a chemical alteration of the body, Bioinformational medicine, like **Homeopathy, Bioresonance, Cell energy resonance** focusses on the electric, energetic and informational aspect of the body to restore health. These treatments are non- invasive and usually free from side effects, compared to pharmaceutical chemical drugs.*

“Western allopathic medicine is 80 years back in time by not recognizing these facts.”

Prof Dr rer nat W. Ludwig, German physicist and researcher. Developer of PEMF Therapy devices.

Diagnostic and Treatment in one session

Over the years of his experience, Michael has developed his own style of diagnostics and treatments, which allows a proper assessment without many technical gadgets.

As by Sept 2014, he has consulted people from 76 nations. His youngest patient is 3 months and the eldest 81 years old.

“Most of the people, who come to me, have already seen many specialists, but they want another opinion and a relief of their symptoms. We provide a treatment immediately with latest Bioenergetic devices, to restore any energetic dysbalance. Patients report that they experience a better energy, mood and relief even after the first session.”

No two persons are the same

Each one of us is a unique individual being and has its own strength and weak points. Therefore a general therapy recommendation is usually not successful, especially once it comes to supplements, as your body sometimes

cannot break down certain ingredients. An individual testing will be done for each and every supplement you take, as well as for the dosage we recommend to you.

What conditions does a Naturopath treat?

Michael Billmann's patients consult him about all kind of problems, from a simple Cough and Sinuses, to Allergies, Asthma, Arthritis, Osteoporosis, Diabetes, etc. Simply put, a German Naturopath is trained to handle the “A to Z” of medical conditions. His treatments are holistic, safe and integrated.

What does Michael specialise in?

Michael 's patients are those who prefer a natural treatment with no side effects.

By diagnosing and treating the underlying cause of the dis-eases, all the other symptoms will automatically disappear. Treatment is given with latest state of the art Bioenergetic- devices, like PEMF Cell resonance therapy, LowLevelLaser, or Monolux light, which are scientifically researched and proven to be enormous effective.

Dr Billmann focuses as well on prevention. If necessary, he will refer patients to consult specialists in other fields of medicine whom he works closely with.
